Address: Helwan, Cairo , Egypt

PROFESSIONAL SUMMARY

Motivated Front-End Developer with practical experience in building responsive web applications using Angular, TypeScript, Bootstrap, and Tailwind. Worked on projects including Azkar and Weather apps, landing pages, and a full e-commerce platform. Focused on clean code, performance, and delivering user-friendly interfaces. Currently looking for an internship or entry-level opportunity to grow and contribute to real-world projects.

EDUCATION

High School Student – Fatma Elzahraa School
- Expected Graduation: 2027

Frontend development diploma (Route Academy)

COURSES

- Frontend development diploma (Route Academy)
- CSS Courses (M3aarf Platfomr)
- Elzero Web School (Youtube)
- Abdlerahman Gamal (Youtube)

TECHNICAL SKILLS

HTML5	Bootstrab	Angular Framework
CSS3	Tailwind	TypeScript
JavaScript	SASS	Jquery
Git&Github	NPM	Performance & Accessibility optimization

PROJECTS

- **Fresh Cart Ecommerce.**
  Developed a dynamic and fully functional single-page application (SPA) using Angular 17, TypeScript, and Bootstrap. The project includes essential pages such as Login, Register, Forget Password, Home, Products, Brands, Categories, Wishlist, Cart, and Payment.
  Implemented core Angular concepts, including Pipes, Guards, Interfaces, and Services, ensuring a modular and maintainable code structure. Integrated seamlessly with APIs to deliver real-time data updates and dynamic user interactions.

- **Azkar - Islamic Web Application**
  Developed a comprehensive Islamic web application using Angular 17, TypeScript, and Tailwind CSS. The app features Morning and Evening Azkar, Prayer Times, Hijri Date, Digital Tasbeeh, and Quran Audio with over 200 reciters. It also includes a customizable Settings page for theme selection, including Dark Mode, and city-based prayers times.
  Built as a Single-Page Application (SPA), utilizing core Angular concepts like Pipes, Interfaces, and Services to ensure dynamic functionality and a smooth user experience.

- **Personal Portfolio**
  HTML5, CSS3, TypeScript, API, Owl Carousel
  Built a responsive portfolio with dark mode, SEO optimization, and accessibility support. Integrated a real API for contact functionality and used Owl Carousel to showcase projects. Focused on clean code, fast performance, and best practices.

- **Product Management CRUD App**
  Built a dynamic CRUD application using HTML, CSS, JavaScript, and Bootstrap to manage products. The app allows users to add, edit, delete, and search for products by name, description, price, photo, and category. Features a responsive design with real-time search functionality for an enhanced user experience.

- **Weather Web Application**
  Developed a responsive weather application using HTML, CSS, JavaScript, and Bootstrap. Integrated a real-time weather API to display current weather conditions, along with forecasts for the next two days. The app features a user-friendly interface and dynamically updates based on the selected city.
